

Project title: Clinical Management project

Technologies used: Java Spring Boot React.js CSS

Description: A clinical management system that allows patients to book appointment and submit reviews, while doctors can manage schedules and patient details through a dashboard.

Screen: Home Page

Screen: Book Appointment

Description: Patient can book a appointment

The screenshot shows a 'Book Appointment' form centered on a light blue background. The form has a white header with the title 'Book Appointment'. It contains several input fields: a text field for 'Name:', a text field for 'Age:', a dropdown menu for 'Disease:' with the placeholder text 'Select Disease', a date picker for 'Date:' showing 'dd - mm - yyyy', and a time picker for 'Time:' showing '-- : --'. At the bottom of the form is a blue button labeled 'Book Appointment'.
